## Round tour Lake Lucerne

### PANORAMIC TRAILS IN THE HEART OF SWITZERLAND.

Standing on the shores of Lake Lucerne, you will be truly inspired by the magical atmosphere. The view of the towering mountains all around, one or two of which are covered in snow almost every season, is simply magnificent. The lake glistening in the light of the sun or immersed in a mystical veil of mist when it rains. And if you're lucky, you'll see one of the historic paddle steamers making their rounds on the lake. Join us on this tour, because not only the lake is a special place, but also the mountain world that surrounds it.

### *Details of the Round tour Lake Lucerne*

Lucerne is the capital of the canton of the same name in central Switzerland and perfectly located for the start of our tour. Tip: Walking over the Chapel Bridge to the Water Tower is a real must. We set off in the direction of Pilatus, the city's local mountain at 2,128 metres. The stage leads from the pass steeply downhill to the Alpnachersee lake and into Alpnachstad.

On the "wildlife observation trail" you will see magnificent panoramas and, with a bit of luck, black grouse and ibex; in any case, you will get interesting information on the wildlife of the region. The Lake of Uri and, as an insider tip, the Risleten Gorge are just waiting to be explored by you on day 4, before you head for the Rigi, the queen of the mountains, with imposing views and first-class hiking trails.

### *Highlights of the 7-day hiking tour*

- **Lucerne** is almost kitsch, so beautiful are the alleys of the old town, the promenade along the lake and the sights around the water tower and the Lion Monument. It's not only children who get their money's worth at the Transport Museum, adults also enjoy the exhibition of the numerous means of transport. Those who like to go shopping will find numerous great shops in the new town.
