

Eurohike checklist

FOR YOUR FOUR-LEGGED HIKING COMPANION

With our Eurohike checklist, there is nothing standing in the way of your next hiking holiday with your dog.

EQUIPMENT	DETAILS	PACKED?
Transport box and dog basket	To ensure your dog is safe while driving, we recommend a transport box (if possible with a blanket or towel) for the car. This way your four-legged friend can relax on their way to the destination. And bringing the dog basket also provides necessary feel-good atmosphere in the accommodation.	<input type="checkbox"/>
Muzzle and leash	Always have a muzzle handy. When selecting a leash, we recommend shorter or medium-long leads with a length of less than three meters, especially when hiking.	<input type="checkbox"/>
Collar	Clearly, every dog in Europe must be chipped. In the event your dog gets lost, they can be reunited with you quickly. Nevertheless, it is recommended to add the dog owner's name and telephone number to the collar if possible.	<input type="checkbox"/>
Dog brush	Correct grooming depends on the breed and hair length - should your companion's fur knot, your dog will thank you for bringing a brush.	<input type="checkbox"/>
Dog shoes	When hiking in rough terrain, it is recommended to bring dog shoes with you to avoid possible injury to the paws.	<input type="checkbox"/>
Travel provisions	Please pack plenty of water and easily digestible food with appropriate bowls for your dog. Don't forget treats! Water is particularly important when hiking in warm regions with a high temperature. And should you pass a cool body of water, release the lead and enjoy!	<input type="checkbox"/>
Bags	It is a responsible dog owner's job to remove droppings along the way.	<input type="checkbox"/>
Local vets	Please inform yourself about vets or clinics along the route, should there be an emergency.	<input type="checkbox"/>
Emergency equipment	Carrying a first aid kit is not only recommended for us humans. Basic equipment should also be packed for our beloved companion: <ul style="list-style-type: none"> ✗ Claw scissors ✗ Tweezers/tick remover ✗ Disinfectant / wound spray ✗ Any medication (e.g. diarrhea medicine, ear cleaners, anti-nausea agents) ✗ Parasite prophylaxis ✗ Sunscreen for short haired breeds ✗ Eye wash ✗ Ointment for insect bites ✗ Bandages and scissors ✗ Toys: If your dog gets a chance to play on the trip, don't forget its toys! 	<input type="checkbox"/>
