

Eurobike & Eurohike on Tour-App

HOW TO INSTALL THE APP ON THE DEVICE?

Simply search for the „Eurobike & Eurohike on Tour App“ in the relevant app store and download the app for free. Or right here via ‚Direktlinks‘ depending on the device:

- Google Play Store: <https://play.google.com/store/apps/details?id=com.schneidergeo.eurofun.app>
- Apple App Store: <https://apps.apple.com/at/app/eurobike-eurohike-on-tour/id1557251936>

After downloading and installing the app you can quickly load the data for the respective holiday into the app:

- **Select tour operator:** Select ‚Eurobike‘ for cycle holidays or ‚Eurohike‘ for walking holidays
- **Enter download code:** The transaction number or booking number without the „V“ (i.e. V1234561 -> booking number 1234561) is also the **download code for the holiday**. This is displayed directly when the hotel list is sent under the corresponding link, but can also be found ‚for instance, on the personal hotel list under „Transaction number“ or elsewhere (booking confirmation, etc.).

All necessary data is then loaded and the app can be used to its full extent immediately up to one week after departure. Each guest can use two different devices.

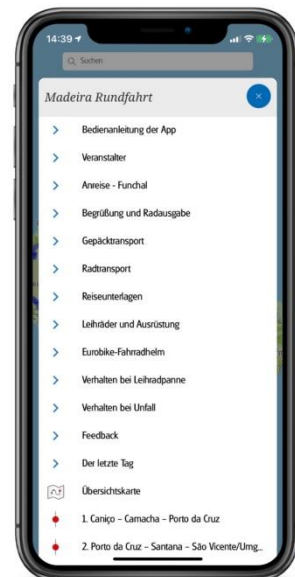

QUICK START GUIDE

Important basic setting: Allow the app to access the location and notifications in order to be able to locate the mobile phone and to receive Push-notifications on the lock screen.

The **menu** contains all information about the holiday, the overview map and the respective daily stages.

The **coloured button** at the bottom right takes you to the main menu. In addition, there is an additional filter option on the bottom left for sights and interesting things en route.

You can **access navigation** by selecting the respective daily stage and then selecting the image/symbol or the associated route (at the top of the screen)

Eurobike & Eurohike on Tour-App

On the subsequent screen you will find the special information about the route and organisational information about the holiday. Route navigation can also be conveniently started from here.

Further information on the route can be found under the menu items „**Details, Data and Map**“. In addition, information from the customer can be sent directly back to us in real time under the „**Report**“ item (information about any diversions, closures, suggestions for improvement, etc.).

NAVIGATION

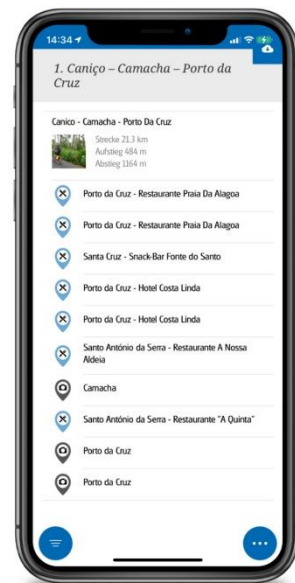

The Map-menu item opens an operating menu on the right edge of the display. This can be closed and opened with the white button at the bottom right of the map.

The navigation is firmly under your control using the operating menu:

- **Start/stop navigation:** start with the directional arrow / stop with the X.
- **Map headed north/direction:** of travel: with the compass.
- **Update position:** with the target circle.

The viewing angle of the map can be changed with two finger at the same time on the display and it is also very easy to zoom into the map.

Note: Opening internet links and navigating to POIs and starting points only work in the ONLINE mode!

More information on using the app can be found at our websites under „travel informations“ – „Before the tour“.
